

Tipp City Needs You!

What if?

Someone you know or love needs an ambulance and we do not have coverage at the time. Your loved one will have to wait until mutual aid arrives from out of town. Unfortunately the "What if..." is already happening on occasion.

Who can help?

Men and women who work in area shops and industry or self employed and work at home residents.

The reward?

Helping to save a life or aid and comfort the ill and injured is incredible. The satisfaction gained from giving back to the community through service as an EMT is unmatched by any other service.

If not you; who will answer the call?

Help us keep our community the special place it is. For more information about becoming a paid volunteer contact our office at 667-1680 between 7am and 3pm, M-F. Better yet, bring the family to the station at Hyatt and Main for a visit and talk to our staff.
