Re: Mosquito Fogging in Tipp City

FOR IMMEDIATE RELEASE

The City of Tipp City was scheduled to begin fogging the community for mosquitoes in May. Due to the weather we will now begin fogging on June 9th there will not be a rain date for this application. A second application will be done on June 20th with a rain date of June 22nd. A third application will be done on June 28th with a rain date of June 29th. A fourth application will be done on August 30th with a rain date of August 31st, followed by the fifth and final fogging on September 12th with a rain date of September 13th. The mosquito fogging will begin at 9pm and conclude by 3am on the days stated, beginning on the western side of the City and proceeding easterly, fogging the entire community.

Residents are advised to avoid direct contact with the fogging mist and to close house and automobile windows. If rain or wind conditions prevent fogging, the City will reschedule the applications. Additional fogging may occur later if needed. Any questions can be directed to the City Utility/Services office at 667-6305.

End

John H. Donnelly, P.E.
Director of Municipal Services
and Engineering

CC: Timothy J. Eggleston, City Manager.
