Worksheet A Qualifying Wages (see instructions below) - attach all W-2 forms that show local tax withheld

Worksheet A is for the calculation of qualifying wages and credits allowed for W-2 income. Qualifying wages (column C) are generally reported in box 5 on the W-2 form (Medicare wages). If no wages are reported in box 5, use the highest wage reported on the W-2. Tipp City residents may claim a non-refundable credit (column E) for city income taxes paid to the work city. The amount shall not exceed the tax due Tipp City on the same income. If you worked for an employer that withheld for multiple taxing jurisdictions, report only the totals on worksheet A and attach a breakdown of the local wages and taxes withheld.

| Column A | Column B | Column C | Column D | Column E |

Worksheet B is to be used by individual taxpayers who have income from sources other than W-2 income. Profit/loss from the sources listed below shall be netted, regardless of location, to arrive at a net income/loss. Credit for taxes paid to other municipalities is permitted (report credit on line 5b, page 1), but may not exceed the tax that would be due to Tipp City on the same income.
